कंप्यूटर आधारित लिखित परीक्षा की तिथि

28 सितंबर, 2026 (सोमवार)

**The date of Computer based Written Test is
on**

28th Sep 2026 (Monday)

-हस्ता/-- -Sd/-

सहायक महाप्रबंधक AGM

(कॉर्पोरेट भर्ती) (Corporate Recruitment)

B. The Computer based written test will be held at centres in Bangalore.

C. Candidates have to make their own arrangement towards attending the Written test.

D. The Written test will be for a duration of **2 hours** on the following topic for ITI Trainees & Office Assistant Trainees.

E. Each question will be of One mark and for each wrong answer will have 0.25 negative marks.

F. The syllabus for the Computer based written test for ITI domain will be as below:

Sl.No	Test area	Mark distribution	Duration
1	Quantitative Aptitude, Logical Reasoning & General English	40 Questions	120 Minutes (Total 2 Hours)
2	Subject	80 Questions	

Domain	Technical Subjects
ITI Trainees Electrician	Basic electricity, Different Electrical components, Different type of Wiring systems, Tools and equipment & their usage and maintenance, Different safety practices, earthing, first aid Different Measuring instruments, AC/DC fundamentals, three-phase systems, Types and operation of Transformers, Different Electrical machines, Control systems, Different type of Renewable energy basics, Electrical calculations, Engineering science, Practical sizing Different type of Engineering Drawings, Trade-specific diagrams
ITI Trainees fitter	Different Hand/machine tools, Ferrous & non-ferrous metals, heat treatment, Basic fitting, Safety Measures, Power transmission basics, Precision fitting, Machine maintenance, Pneumatic & hydraulic systems Different type of Welding & joining, Quality control, Workshop Science & Calculation, workshop operations, Different Engineering Drawing.
ITI Trainees Welder	Different type of welding, PPE, fire safety, handling cylinders, electrical safety, Metallurgy & Welding Quality, Steel properties, heat-affected zones, weld defects (cracks, porosity), Non-destructive testing (visual, dye-penetrant), Different Welding Processes & Equipment, MIG, TIG, FCAW, flux-cored arc welding, Structural Welding, Different Steel components, Different Welding codes & standards, Welding high-strength steels, preheating methods, Workshop Science & Calculation, Different Engineering Drawings.

ITI Trainees Machinist	Basic fitting operation, Application of engineering drawing, Basic science, Measuring instruments, Different Operations, Tolerance of components, Principle of inter changeability, Different Fits, Different shaped jobs , conventional machines, Different chucks, Different single point tools , Different cutting tool, Re-sharpen different single & multipoint cutting tool Different turning operation, Different components of machine & parameters, Machinist tool, machine & Machining parameters, Different slotting operation. Grinding Operations, CNC turning centre, Vertical Machining, simple repair of machines, overhauling of different machines and check for functionality.
ITI Trainees Turner	Engineering drawing, Basic science , Basic Fitting Operation, Conventional lathe machine operation, Different cutting tools, Different turning operation, Testing the alignment of lathe, Different component of machine, Different machine parameters, Different thread, Different lathe accessories, Basic maintenance of lathe & grinding, , Setting of machine parameter.

G. The link for Downloading the Hall Ticket/ Exam Admin Letter will be hosted by 1st of December, 2023. The Hall Ticket/ Exam Admit letter will indicate the details of Venue and the Exam reporting timings.

**Please Note : The date of Computer based
Written Test is
10th December 2023 (Sunday)**
